RIOTING OCCURS IN CUBAN CITY

Conservative Meeting Disrupted By Police At Cienfuegos

(By Review Leased Wire.)
HAVANA, July 12.—The secretary of the interior received tonight a telegram signed by the leaders of the conservative party in Cienfuegos, protesting that the police of that city, without the judicial mandate required by law, had entered the conservative party headquarters there and disrupted a meeting of the supporters of Dr. Jose Antonio Frías, who recently resigned the presidency of the Cienfuegos conservatives. The reaction of the police seems to have followed a clash between the adherents of the mayor of Cienfuegos and those of Dr. Frías. It is feared that grave disorders may follow. Precautions have been taken to prevent further rioting.

NATIONAL GUARD SCANDAL BOBS UP

(By Review Leased Wire.)
WASHINGTON, July 12.—The federal government today began an investigation of the causes for which Major General Wood, commander of the department of the east, ordered Col. Louis D. Conley and Lieut. Col. John Phelan of the Sixty-ninth New York Infantry, national guard, to be mustered out of the federal service. Secretary Baker ordered the inquiry after he had conferred with President Wilson on charges of New York congressmen that the order was arbitrary and unnecessary.

While no action will be taken here until General Wood's report on the cases have been carefully considered, there were indications tonight that Conley and possibly Phelan, would be reinstated.

MEXICANS RETURN TO AGUA PRIETA

Civilians Driven In By Fear Of War Come Back To Border And Arizona

(By Review Leased Wire.)
DOUGLAS, July 12.—The repopulation of Agua Prieta, the Mexican town opposite Douglas, with civilians, began today when several hundred women and children who had left the border district for mobilization camps to the south, returned to their homes. They brought with them tales of suffering in the camps which made evident the fact that limited food, lack of shelter and unsanitary conditions had been matters to reckon with. They said many of the non-combatants would return to Agua Prieta and to Arizona towns from which they had come.

General P. Elias Calles, commander in chief of the de facto forces in Sonora passed several hours today in Naco, reorganizing the civil offices at that port.

L. R. Budrow, general manager of El Tigre mine, with several department heads left here for the mine today to inspect it and make plans for reopening. While there has been no definite announcement, it is understood here that mining men have information leading them to believe that the embargo on explosives for Mexico will be modified soon.

The second battalion, Arizona National Guard, left here today for Fort Huachuca, Arizona, where the four companies will be stationed for the present.

ALLIES' NAVY SHADOWING "SUB"

(Continued from page one.)
Violation of international law by hostile warships after leaving the United States.

Interesting reports that other German merchant submarines may visit the United States was introduced by a dispatch sent by the state department to the American consul at Bremen inquiring why he did not confidentially advise the Washington government of the sailing of the Deutschland.

BALTIMORE, July 12.—That plans were being rapidly to reload the submarine Deutschland and ship her out speedily on her return voyage to Germany was indicated tonight. A special permit was obtained for continuing the unloading of the vessel to night and it was expected that she would be ready tomorrow to begin a cargo of nickel and rubber.

No one in authority would say when the vessel would depart and the only positive statement in that connection was contained in Captain Koenig's declaration to the local customs officers that he expected to sail within "ten days."

The tug Thomas Timmins took up a position directly in front of the Deutschland. When the Timmins entered dry dock it was said she was getting ready to return to the Virginia Capes to convey into the Chesapeake Bay, as she did the Deutschland, the submarine Bremen which is said to be four days on her way to this country.

It became known late today that several conferences have been held here between representatives of the Ocean Navigation Company and the Krupp Steel Company and Simon Lake, inventor of the submarine. This gave rise to reports that a company was in progress of formation for the purpose of carrying on undersea commerce between this country and Germany and that Mr. Lake had been invited to accept the position of consulting engineer.
